STATEMENT OF THE AUTHOR OF THE THESIS

D. Daniel Conde Torres with ID: **77484102T**.

As author of the thesis entitled: *Computational Insights into the Biophysics of Antimicrobial Peptides and the Rational Design of Environment-Conditioned Peptide Therapeutics*.

I present my thesis following the indications of the International Doctoral School of the University of Santiago de Compostela and declare that:

1. No conflicts of interest related to the development of this work. I affirm that all research, data analysis and conclusions presented in this work have been conducted with academic integrity and without any financial, professional or personal interest that could influence its content.
2. All figures and tables included in my thesis are of my own authorship, except where otherwise indicated. Any figures not created by me are properly credited to their respective sources. Figures of my own authorship were created with own developed code as well as VMD, Blender or ChemDraw under free scholar subscriptions. The codes to create the images are available at <https://github.com/DanielCondeTorres/TESIS>.

In Santiago de Compostela, 22 of January of 2026.
